

enummi® Refreshing Toner

The beauty of science

- Restores skin pH balance
- Fortifies skin with natural humectants to retain moisture

What is enummi Refreshing Toner?

enummi® Refreshing Toner nourishes your skin with vitamins, antioxidants, and vital moisture to bring your skin into balance. Applying toner restores skin's proper pH, adds moisturizing ingredients, and prepares skin for target products.

Key Features

- Promotes a smooth, fresh, and radiant complexion
- Contains Transfer Factor XF®

Did You Know?

For a dewy, moisturized look toner can be sprayed over freshly applied make-up.

Instead of aftershave, men can use enummi Refreshing Toner for a soothing and revitalizing boost to freshly shaved skin.

Recommended Use:

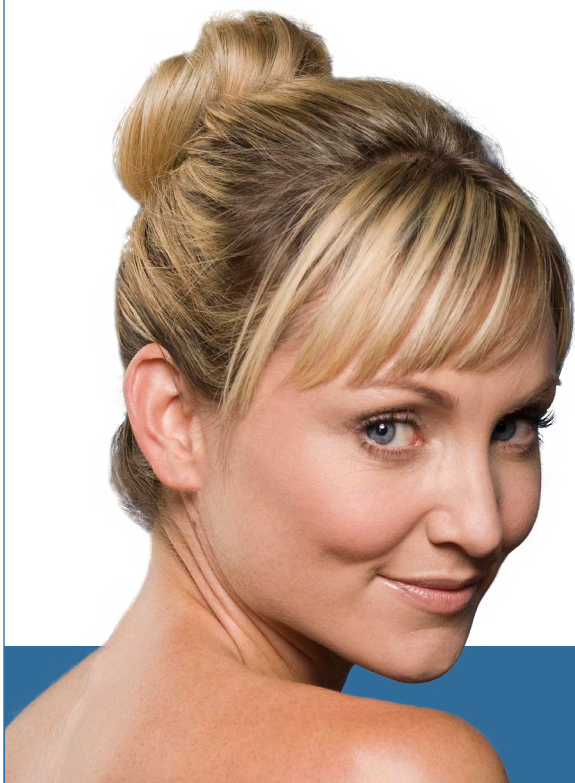

Spray enummi Refreshing Toner directly onto the face or spray on a cotton pad and gently work in small circular motions. As a refresher throughout the day, spray it lightly over the skin for added moisture and revitalization.

enummi® Refreshing Toner

The beauty of science

Key Ingredients

- Made from the nutrient-rich substance produced by honeybees, **royal jelly extract** is rich in amino acids, promotes moisture retention, for a healthy, youthful appearance.
- **Peony flower extract** gently tones the skin and provides soothing benefits for a refreshed complexion.
- Derived from the sugar beet, **betaine** acts as a humectant, provides moisture, and conditions the skin for a soft and smooth complexion.
- Also known as vitamin H, **biotin** is part of the vitamin B complex group. It conditions the skin, while providing a healthy glow.
- Derived from fruits, vegetables, and grasses, **sodium PCA** acts as a natural moisturizing factor (NMF) to help retain optimal moisture levels in the skin.

INGREDIENTS: Water, Butylene Glycol, Royal Jelly extract, *Paeonia albiflora* (Peony) Flower extract, Transfer Factor XF™, Tetrasodium EDTA, Biotin, Methyl Gluceth-20, Betaine, Sodium PCA, Sodium Hyaluronate, Sodium Citrate, Glycerin, Hexanediol, Caprylyl Glycol, and Citric Acid.
